Hesamaldin Gol

Full Stack Web Developer / Remote

Michigan, USA | hegolz.dev@gmail.com | www.hegolz.com

Professional Summary

Self-taught Full Stack Web Developer with hands-on experience in building dynamic web applications. Skilled in authentication systems, comment management, and dashboard visualization. Experienced in deploying projects online and managing end-to-end web workflows. Looking for remote opportunities to apply practical skills effectively.

Skills

Frontend: HTML5, CSS3, JavaScript, Responsive Design
Backend: Node.js, Express, SQLite
Security: XSS Protection, Rate Limiting
Tools & Design: Git/GitHub, Chart.js, Netlify, Figma, Adobe Photoshop, Domain & Hosting Setup
UX/UI: Dashboard, Forms, Cards, Dark Mode

Projects

1- Comment & Admin Dashboard – Full-featured comment system with admin panel, authentication, rate limiting, and session-based login.
2- Interactive Dashboard & Statistics Panel – Data visualization including dynamic charts, filtering, real-time updates, and responsive UI.
3- Full-Stack Authentication System – Secure user registration and login, session management, password hashing, and API integration.
4- Personal Website – Placeholder for future project (own domain and deployment setup).

Experience

Background in business management. Currently focused on web development through self-learning and real projects.

Education

Mechanical Engineering

Languages

Persian (Native) | English (Basic – improving)

Additional

Open to remote work, employment, and project-based collaboration.
Able to deploy and launch websites independently (domain & hosting setup).
Flexible schedule.
